Cumulative Index

THIS Key Term Index and the Index of Titles which follows it form a simplified information retrieval system for the technical articles which have appeared in Vol. 3 of TEXTILE CHEMIST AND COLORIST.

The numbers following the entries in the Key Term Index are used in conjunction with the Index of Titles to locate and identify those articles which are described by particular combinations of key terms.

For example: Information about the dyeing of textured nylon is found by examining the title numbers listed after each of the appropriate key terms:

Dyeing	1, 4
Nylon Fibers	4
Textured Yarns	4

Title 4, which is common to all three key terms, will provide the desired information. Consulting the Index of Titles identifies and locates Title 4 as "The Effect of Heat Variations in False Twist Texturizing on the Dyeability of Man-Made Fibers," issue No. 1, page 47/15.

The complete index for Volume 1 can be found in Vol. 1, No. 27 (December 31, 1969), p87. The complete index for Volume 2 was published in Vol. 2, No. 25 (December 16, 1970), p44. Reprints of both are available at $2 each.

The journal is also available on microfilm from University Microfilms, Ann Arbor, Michigan, 48106.

Key Term Index

Abrasion 7, 31, 36
Abrasion Resistance 32
Abrasive Wear 31
Accidental Burn Injuries 17
Acrylic Resins 27
Acrylics 25, 43
Activated Carbon 53
Adhesives 11, 27
Aeration 14, 53
Anidex Fibers 33
Apparel 35

Bagging Test 51
Barré 4
Batch Dyeing 20, 43
Biochemical Oxygen Demand 53
Bleach Liquors 5
Bleaching 5, 33, 37, 41, 49
Blends 29, 32, 33, 34, 37, 45, 56, 57
Bonding 11
Boys' Jeans 32
Breaking Strength 32
Buffers 5
Burn Injuries 17
Burning Tests 26
